Attn: Mr. Paolo Lonardi
Casella Postale 17029
Viale Monza 338
20128 Milan, Italy

Dear Mr Lonardi,

Re: CHP Energy Services Agreement relating to Oricola CHP Plant – CHP Plant Completion Date

We refer to the CHP Energy Services Agreement relating to Oricola CHP Plant dated 11 October 2011 (the "Local Agreement"). Unless otherwise defined herein, terms shall have the same meaning than specified in the Local Agreement.

First of all, we wish to hereby formalize both ContourGlobal Oricola Srl and Coca-Cola HBC Italia srl's agreement to exclude three chillers (2 x Delchi PN150 and 1 x Carier 30GH120) from the definition of the Existing Plant and from the related list of equipment set up at schedule 4 of the Local Agreement. This modification shall be considered as an amendment to the Local Agreement relevant provisions. The other provisions not covered by this modification remain unchanged and fully applicable to the parties.

Second, we hereby inform you that the CHP Plant successfully completed the Completion Tests on 14/08/2012. For your proper information, you will find attached all completed test summary data sheets in relation with the Completion Tests.

In view of the above and as per article 8.2 of the Local Agreement, we herewith request your agreement that the Completion Tests have been satisfied on the 14/08/2012.

As a result thereof, in accordance with the Local Agreement, the Completion Date of the CHP Plant shall be the date of the Completion Tests and all consequences attached to the Completion Date shall take place.

In accordance with article 5.1.1 of the Local Agreement, the takeover of the Existing Plant (as newly defined herein) by the Local Company shall take place at the Completion Date and all consequences attached to this takeover shall take place.

We would appreciate that you indicate us your acceptance of the terms contained herein in returning us a countersigned copy of this letter for my attention to the following address: 40, Rue de Washington, 75008 Paris, France.
